VODKA

Vodka is considered the most pure of all spirits because it is made from just four ingredients: water, wheat, rye, and barley. Additionally, vodka is distilled multiple times to remove any impurities, which makes it a very pure spirit. This also means that vodka has a very neutral flavour, which is why it can be used in cocktails with ingredients that have strong flavours.

WHITE RUM & CACHACA

Cachaça vs Rum are quite the same thing if we look at the product source: sugarcane. However, the two spirits have an entirely unique flavor influence, separate history, and varying production processes.

Pampero Blanco	12
Bacardi	12
Yaguara Cachaca Organica	14

DARK RUM & SPICED RUM

To produce dark, golden, or black rum, producers age the rum before filtering and bottling. The rum's darker color and bolder flavor come from the wooden or charred oak barrels used in the aging process. During this aging process, producers also add ingredients to add flavors and colors. Commonly, molasses, burnt sugar, caramel, and spices, are added to naturally enhance the flavor of dark rum. The longer the rum is aged, the darker it becomes and the bolder the flavor.

TEQUILA

Tequila is a brandy made in a small region of Mexico, through the distillation of the fermented must that is obtained from the heart of a plant known as the “blue agave”.

This heart of the plant, similar to a gigantic pineapple, is also called “mezcal”, which in Nahuatl means “the house of the moon”, to mean the core, the essence, the center, etc.

BOURBON

Bourbon is a type of whiskey that is made throughout the United States, but originated in Kentucky. It is made from at least 51% corn, along with other grains such as wheat, rye, or barley. The production process for bourbon involves distilling the fermented grains and aging the resulting spirit in never before used charred oak barrels for at least two years.

Bourbon is known for its sweet and smooth flavor profile, with notes of vanilla, caramel, and oak. It is typically served neat or on the rocks, and is a popular ingredient in classic cocktails such as the Old Fashioned and the Manhattan.

AMERICAN WHISKEY

American whiskey is whiskey produced in the United States. American whiskeys made from mashes with at least 51% of their named grains include bourbon whiskey, rye whiskey, rye malt whiskey, malt whiskey, wheat whiskey, Tennessee whiskey, and corn whiskey.

Jack Daniels	14
Jack Daniels Single Barrel Tennessee Whiskey	16
Westward Stout Csk Finish	19

SCOTCH WHISKY

Scotch is a type of whisky that is made exclusively in Scotland. It is made from malted barley, which is dried over peat fires to give it a smoky flavor. The production process for scotch involves distilling the fermented barley and aging the resulting spirit in oak barrels for at least three years.

Scotch has a distinct smoky and peaty flavor profile, with notes of heather, honey, and fruit. It is typically served neat or with a splash of water, and is often enjoyed as a sipping spirit rather than in cocktails.

WHISKY

Whiskey / Whisky is a distilled alcoholic beverage that is also made in the United States and throughout the world for that matter. However, Irish Whiskey can only be made in Ireland. All Whiskeys are made from a variety of grains, including corn, rye, wheat, and barley. The production process for whiskey is similar to that of bourbon, but there are some key differences.

For example, whiskey does not have to be made from 51% corn, like bourbon does. Additionally, whiskey can be aged in previously used charred oak barrels. Whiskey also has a wider range of flavor profiles, depending on the specific type, region and production process.

BRANDY/COGNAC

Brandy generally refers to a distilled spirit made from fermented fruit juice. It can be produced using grapes or other types of fruit, such as apples. Calvados, pisco, armagnac, and applejack are all types of brandy. Unlike cognac, brandy can be made anywhere in the world.

While cognac is a type of brandy, to earn the designation, the spirit must meet certain specific criteria. Named for the region where it's produced (just like champagne) cognac must be made in the state of Charente in the Cognac region of France, and be made from white grapes from one of six different terroirs; the Ugni Blanc grape variety is its primary ingredient, and grapes from "Grande Champagne" terroir are the most coveted.
